PRICE LIST

Pages 88 to 96

E point with pride to the excellent records made by our dealers throughout the country handling the EFCOLITE line during the past year.

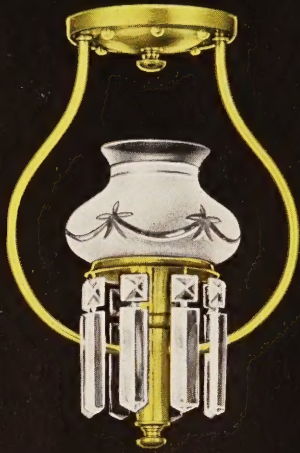

It is with this pride, mingled with appreciation, that we present a greatly enlarged line, as shown in this catalog, which features a wide range of original ideas and offers exceptional styles predicated on quality; good design combined with moderate pricing and a clear-cut sale policy that assures confidence and satisfaction.

The EFCOLITE CORPORATION is alive to the opportunities ahead, and we pledge our unstinted cooperation to the lighting fixture trade.

EFCOLITE CORPORATION

Trenton, New Jersey

Nautical

To those nautically minded, this group will find spontaneous appeal and enthusiastic acceptance.

Realism has been carefully maintained. This, and flawless workmanship, combines to make the EFCOLITE Nautical Series outstanding.

The imaginative yearnings of adventurous youth, and the mellow reminiscences of an "old salt" will find sympathetic encouragement and pleasure under the spell of their influence.

 Gold Striped Cream Glo Glass.*

Modern Bedroom Lighting

It is impossible to illustrate in one color, the beauty and unique features of these Modern Bedroom Lighting Fixtures. Without benefit of illumination, to show the cleverly designed construction, which allows an interesting twinkle of light to shine here, or a soft diffused tint to glow there, they must be seen and in service to fully appreciate their beauty.

They are well made and finished with heat-resisting lacquers to assure lasting beauty. There are various direct and semi-indirect styles to choose from, and color combinations that will fit into any scheme of decoration.

Outdoor Lanterns

All Lanterns are also made
for mounting on ceiling.

See Price List.

Turning our thoughts
back through the years, we
see the flickering light of
the old outdoor lantern
bravely shedding its feeble,
but encouraging light of
welcome to the weary trav-
eler.

This spirit of yester-
years has been captured
and preserved in these old-
fashioned lanterns. They
will brighten the exterior
of your home at a compar-
atively small cost.

*Efcolite Lanterns are
Hand-Made and are
Weatherproof and Rust-
proof.*

Lumiline

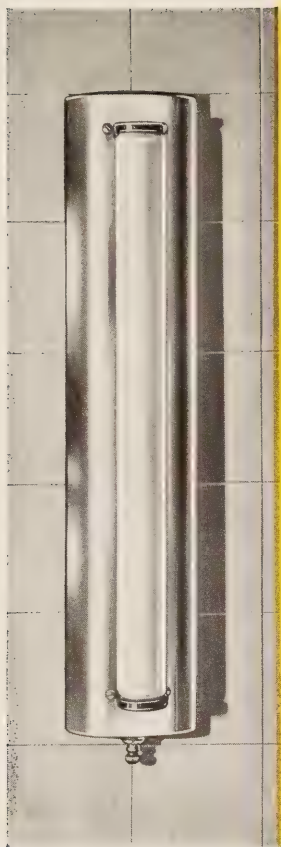

There is a definite place for LUMILINE Brackets in the wide field of interior lighting where modern decorative designing often calls for unconventional treatment.

LUMILINE fixtures, while somewhat unpretentious in design, uniquely make complete an elaborate scheme of modern interior decoration. The very nature of their lines make them adaptable to many modern motifs, both residential and commercial.

The EFCOLITE LUMILINE display board will help to effectively merchandise these fixtures. This display in your showrooms will create sales. Full details concerning this merchandising display will be found on page 60.

THESE fixtures are made of heavy gauge BRASS and finished in polished chrome or any sprayed color. They're wired complete, ready to hang. Packed individually.

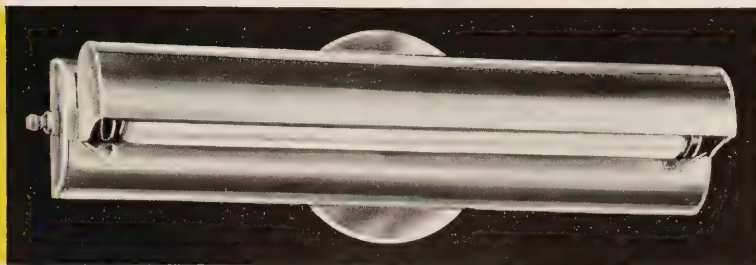

Striking effects are realized by use of colored lumiline bulbs with EFCOLITE fixtures. Lamps can be obtained in Clear White, Surprise Pink, Emerald, Orange, Straw and Moonlight Blue. The 12" bulbs are 40 watt and the 18" size are 30 watt or 60 watt.

Stock Finish: Polished Chrome.

Convenience Outlets

The numbers **906-907-908-911-912-913** and **916-926** are made with convenience outlets, and are indicated on the price sheet by letter "C" following the regular number.

• The jobber who has this attractive “merchandiser” in his showroom is bound to reap the large portion of the lumiline business. The display stand is constructed of wood and finished in a light ivory with blue trimming. It measures 6 feet 9 inches high, 30 inches wide at base.

• A minimum order of four dozen EFCOLITE lumiline brackets, in assorted styles, is necessary to obtain this display board. Send your order at once and be assured of getting your display promptly. The board will be equipped with the brackets, according to your selection, less bulbs, already wired and ready to place in your showroom.

• The prices shown in catalogue covers the equipment only and does not include the lamps. These bulbs are known as T-8 lumiline, and are available from regular lamp sources.

Brass Chrome

Lighting Fixtures

THE brackets and ceiling numbers in this section constitute what might be termed our "staple line," and their adaptability to kitchen and bathroom lighting make them a standard item with the dealer. They are durably constructed of heavy gauge BRASS with highly polished chrome finish and attractively designed to fit into the decorative scheme of modern bathrooms and kitchens. All are wired complete, ready to hang.

Section 3

WITH the advent of electricity, for illumination purposes, little or no thought was given to the "fixture." Quite often the old gas chandelier was utilized and adapted. As electricity became universally used, lighting fixture manufacturers turned their attention to the designing of attractive brackets and fixtures, and each year improved and modern styles have been developed.

In this selection are exhibited the most recent additions to the EFCOLITE Bathroom and Kitchen line of lighting fixtures, finished in chrome. There are many styles to choose from and they are designed to meet the requirements for attractive practical lighting.

991 C/3

991/3 — Three-Way Switch. Furnished with Opal Glass Shade. Back $3\frac{1}{2}$ " x 6". Swings off center 5".

991/1—Same as above with regular Edison Base Socket with single turn switch.

Add "C" for Convenience Outlet for either bracket.

For the convenience of our trade, we will furnish "3-U-Lite" bulbs used in connection with this new Swing Bracket.

997

Furnished with Lucent Glass.

997 —1-Light. Pull Chain.

997C—1-Light. Pull Chain, with Convenience Outlet.

Back $6\frac{1}{2}$ " x $3\frac{1}{2}$ "
Extension $5\frac{1}{2}$ "

Will take 60 watt bulb.

THE NEW EFCOLITE SWING BRACKET has become very popular. It is decidedly new and attractive and finds particular favor with men for shaving.

The three degrees of light has an economical advantage, as the three-way switch in connection with the 3-U-Lite bulb, gives 40 or 60 watts for normal use, and 100 watts when it is needed. (20-40-60 watt bulbs can also be used). The addition of the convenience outlet is especially handy for use with electric razor or vibrator, etc.

999

Furnished with Lucent Glass.

999 —2-Light. Pull Chain.

999C—2-Light. Pull Chain, with Convenience Outlet.

The "700" Line

"DUROCK" CHINA and BRASS-
CHROME FIXTURES

THE "700" LINE is a modern group of Lighting Fixtures that have become very popular. Made of DUROCK Vitrified China with complementary parts of BRASS CHROME, they are both durable and attractive.

The combination of everlasting DUROCK china backs, with socket covers and other fittings in polished chrome plate on solid brass, result in these fixtures having a brilliant and distinctive decorative effect, adding much charm and grace to the surroundings in which they are placed.

Each number in the "700" line is obtainable in any color to exactly match the plumbing fixtures marketed by Standard Sanitary Manufacturing Company, or the Crane Company. However, only *White*, *Ivory* and *Black* will be carried in stock and other color requirements will be made up on order.

Fixtures in Black or White will be furnished with Opal Glass and Cream Glass on Ivory and other colors. All fixtures wired complete, ready to hang. Standard packing, 12 to carton.

Table Lamps and Candlesticks to match your Lighting Fixtures

New beauty and interest is presented in this collection of Table Lamps and Candlesticks which are styled to suit every decorative scheme—some tall and graceful, others short and quaint, ranging from simple colonial lines to the more elaborate combinations of crystal and cut glass.

These Lamp "accessories" are designed to match the lighting fixtures—an innovation that will have a new modern appeal. They are made of the same high-grade materials, and finished to the exacting standards of EFCOLITE Lighting Fixtures.
